

Blohm + Voss Repair

Blohm+Voss

Blohm + Voss Repair GmbH is pleased to recommend company KOWAL Arkadiusz Frontczak in Szczecin; Poland, Gdansk street 36, 70-952

Relationship began 01.05.2014, and ever remains, because it is very satisfying.

The scope of cooperation involves:

1. Work associated with the removal of the funnel on passenger ships: Queen Elisabeth (05.2014); Aurora (11.2014); Queen Victoria (01.2015)
2. Help with installation of new components: scrubbers

The scope of work (details):

- Preparing and protection elements of funnel against pollution and displacement
- Carrying out disassembly works using air plasma cutter
- Disassembly isolation (sheet and mineral wool)
- Transport and segregation resulting scrap

Firma KOWAL prowadziła prace zarówno w czasie rejsu jak i na doku w Hamburgu przy spełnieniu wysokich wymagań bezpieczeństwa. Wykazywała się wysoką elastycznością w zakresie dostarczenie niezbędnego sprzętu, ludzi, a także godzin pracy.

KOWAL Company provided services during voyage and at dock in Hamburg, maintaining high standards of performance and safety. It showed high flexibility in terms of providing necessary equipment, people, and also work hours.

The company should be appreciated for the quality of work performed. In this case, the service class is high. The involvement of representatives of the companies in contact with customers has a significant impact on the brand on the market. Employees of the company conscientiously perform their duties commissioned.

Represented by the company knowledge, gives the customer the feeling that he is in good hands. This leads to the conclusion that it is partnering with professionals. Communication with the counterparty is at a very high level. Cooperation with the company extremely facilitates that employees pay attention to contact took place rapidly.
